Summary

Hi, I'm Saurabh, a Lead Frontend Engineer at Razorpay. Passionate about open source, I enjoy building creative side projects for both fun and learning. At Razorpay, I have worked in Frontend Core team and Razorpay.com's Team.

Over the last 6 years, I've authored multiple libraries, tools, and products like [abelljs.org](#) (featured in ViteConf. Fun fact: This resume is built using Abell), [Text-to-Handwriting](#) (4k+ github stars), [VSCode Terminal Manager](#) (27k downloads on VSCode Marketplace), and many more! Most of my work can be found on my [GitHub](#) and [Portfolio](#).

Work Experience

-  **Lead Frontend Engineer, Razorpay** •  Oct 2024 - Present
Design System, AI Tooling, React, TypeScript
- Ideated and built an open-source AI tool, "Blade MCP", to enable Agentic Coding in Cursor. Used by 70% of engineers to [build features without writing a single line of code](#), improving productivity by 3x while also enabling designers and product managers to vibe-code prototypes and small features. The Blade MCP was featured in [#1 engineering newsletter - The Pragmatic Engineer](#).
 - [Researched](#) and [Built](#) Motion Library for our Design System which was adopted by 30% developers in 3 months of its release.
-  **Senior Frontend Engineer, Razorpay** •  Apr 2022 - Oct 2024
React, React Native, Node.js
- Worked on [Razorpay's Open Source Design System](#), which has 500+ stars on GitHub, has been featured in [Figma's Official Blog](#), and is adopted by nearly all teams at Razorpay with 90%+ CSAT.
 - Design System: Wrote [API decisions](#), RFCs and implemented 9+ components, spearheaded Razorpay's rebranding through it's design system and helped teams migrate to the new brand.
 - Reduced bundle size of our Design System by 60% by fixing tree-shaking issues in the bundler ([44kb -> 13kb in components](#), [47kb -> 23kb in node_modules](#)).
 - Moved razorpay.com's A/B experiments to Lambda@Edge to perform A/B experiments with 0 server hits.
 - Mentored 2 juniors through Razorpay's 1:1 mentorship program.
-  **Frontend Engineer, Razorpay** •  Dec 2020 - Apr 2022
React, Node.js
- Was awarded "MVP Rookie" for building [Razorpay's App Store](#) in just 20 days after joining and another "MVP Award" for building a one-stop monitoring dashboard for any issues on razorpay.com.
 - [Improved the loading performance of razorpay.com by 40% from 4.3s to 2.6s](#). Also documented the process which was referred by other internal teams to improve performance of their apps.
 - Migrated a legacy codebase of razorpay.com from gulp and pug setup to modern TypeScript + Custom React SSR.

-  **Full-Stack Intern, The Souled Store** •  Jul 2018 - Sep 2018
Vue, Django (Python)
-  **MEAN Stack Intern, Bew Digital** •  Jan 2018 - Apr 2018
Angular, Node.js

Achievements

-  **Conference Talks**
- "[Introducing Abell, A New Vite Powered Static Site Generator](#)" at ViteConf 2023
 - "[In the World of JS Frameworks, It's an HTML Framework](#)" at React India 2023
 - Check out more at [My YouTube Playlist](#)
-  **Open-Source Contributions**
- Made some big and small contributions to [NASA](#), [React](#), [Forem/Dev.to](#), [Vite](#), and many other organizations.
 - Authored [Text-to-Handwriting](#) (4k+ GitHub Stars, 6 Million Pageviews), [DEV-widget](#) (29k+ NPM downloads), [Abell](#) (400+ Stars).

Technical Skills

-  JavaScript / TypeScript  Node.js
-  React  Vue  React Native
-  HTML  CSS  Accessibility
-  Documentation  Design System
-  Infrastructure  Compilers
-  Writing RFCs & Tech Specs
-  Bundlers and Build Tools

Education

-  **Bachelor of Engineering in I.T.**
Terna Engg College, Mumbai
University
 Apr 2016 - Nov 2020
GPA: 6.7/10

Still not convinced about hiring me? You can check out my portfolio at [srbh.dev](#) or reach out at [saurabhdaware99@gmail.com](#) for any clarifications or questions. Thanks!
