

Dhanish Gajjar

Frontend Developer | Indie App Maker

LinkedIn · GitHub · dhanish.b.gajjar@gmail.com · Lisbon, Portugal · Open to remote

SUMMARY

Frontend developer with 8+ years of experience in React, TypeScript, and the web stack. For the past two years I've also been building native apps for Apple platforms using Swift and SwiftUI — I've shipped two apps to the App Store. I lean heavily on agentic coding to move from idea to shipped product quickly. I have a design background, which shapes how I approach UI work.

TECHNICAL SKILLS

- Frontend** TypeScript, JavaScript, React, Astro, HTML, CSS
- Backend** Node.js, Express, MongoDB, REST APIs
- Apple** Swift, SwiftUI
- DevOps** Cloudflare, AWS, Docker, CI/CD
- Testing** Jest, Vitest, Cypress
- Tooling** ESLint, Prettier, Git, monorepo
- Design** Figma, Sketch, UI/UX design

EXPERIENCE

Indie Developer Self-employed · 2024 – Present
Building and shipping native apps for Apple platforms — using agentic coding to design, build, and ship solo.

Pulse Focus watchOS · 2024
A deep-focus timer for Apple Watch with haptic-based mindfulness reminders. Built with Swift and SwiftUI, including custom WatchKit haptic patterns. 26 downloads.
[App Store](#) [pulsefocus.app](#)

Wifilicious macOS · 2024
A native macOS network analyser that replaces terminal commands with a clean UI. Built with Swift and SwiftUI. 144 downloads.
[Mac App Store](#) [wifilicious.app](#)

Full Stack Developer Revieve · Sep 2017 – April 2026
AI/AR beauty-tech platform used by 60M+ users and 70+ global brands.

- Helped build the frontend in React and TypeScript from early stage.
- Set up and customised the platform for 50+ enterprise clients using a JSON-driven configuration system, which cut onboarding time from weeks to days.
- Built API demo projects showing platform capabilities — skin diagnostics, virtual try-on, product recommendations — used in sales calls with prospective clients.
- Supported the implementation team by answering technical questions, helping with client integrations, and writing documentation.
- Built and maintained the company's public website.

Senior UX Designer Wodify · 2016
Designed UI/UX for a fitness management SaaS platform. Delivered wireframes, prototypes, and production-ready designs using Sketch and Figma.

UI/UX Designer Various companies · 2008 – 2016
Worked as a UI/UX designer across several companies before moving into development.

NOTABLE PROJECTS & COLLABORATIONS

Wes Bos — CSS Grid & JavaScript30
Designed course thumbnails for the CSS Grid course ([cssgrid.io](#)) and the JavaScript30 YouTube series, reaching hundreds of thousands of developers.
[cssgrid.io](#) [javascript30.com](#)

Brian Clark
Designed and developed the portfolio website for a Microsoft developer advocate using Astro.
[clarkio.com](#)

Sandra Henriques
Designed and built a personal website using GatsbyJS with Sanity CMS.
